**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Davis, California is a small town with a population of about 80,000. Internet Access can be provided by ATT, Comcast or our own local ISP, Omsoft. I have DSL from Omsoft because my internet requirements doesn't need 20 mbps and I don't have to pay for what I don't need. They respond to any problems with my internet access much quicker and with better results than ATT and their pricing structure has not grown in leaps and bounds like ATT did.

These small ISPs throughout the United States have worked hard to provide a good product and service to their customers and have invested a lot of time and money into their companys and they should be able to continue to have access to the the COPPER lines of the Telephone Network.

Thank you.

L. Fong
